Experienced Front-End Engineer with a proven record in codebase optimization, project leadership, and junior developer mentorship. Committed to continuous learning and enhancing team performance for improved user efficiency.

WORK EXPERIENCE

Frontend Engineer
Eze Wholesales

02/2023 - Present   *United States - Remote*
YCombinator-backed B2B e-commerce platform specializing in new and used electronic devices.

Achievements/Tasks
- Collaborated closely with a diverse global team of engineers to fulfill extensive project requirements, including the optimization of user interfaces, enhancing data interactions, and ensuring a seamless and responsive user experience.
- Spearheaded the internationalization efforts by expanding the company's app into Spanish, French, and Portuguese languages, broadening its reach to a more diverse user base.
- Actively contributed to the development of innovative features and solutions, continuously driving the platform's evolution and keeping it at the forefront of the e-commerce industry.

Team Lead Mobile Engineer
TechBeaver

03/2022 - 03/2024   *Nigeria - Remote*
Software Company

Achievements/Tasks
- Successfully deployed three mobile applications to the Google Play Store and Apple App Store, showcasing my strong DevOps skills and proficiency as a React Native developer.
- Spearheaded multiple projects across diverse sectors, including health, Fintech, and business administration, collaborating with different companies and individuals to deliver innovative solutions.
- Demonstrated leadership by mentoring interns and fostering collaborative relationships with global cross-functional teams to ensure project success and knowledge sharing.

Volunteer Frontend Engineer
Chess In Slums Africa

11/2022 - Present   *Lagos, Nigeria.*
A non-profit organisation using the game of chess to help children in slum communities.

Achievements/Tasks
- Spearheading the development of a game-changing admin dashboard that promises to streamline our operations and boost data-driven decision-making.
- Striving to enhance user experiences by creating intuitive interfaces that optimise interactions.
- Guiding an intern, nurturing their growth and fostering a culture of learning.
